**The Birmingham's Favourite Butterflies Poll is a fun celebration of the variety of butterflies that can be found in the city's gardens, parks, nature reserves and other open spaces.**

**Butterflies are fascinating insects, changing from caterpillars to spectacular winged adults through the miraculous process of metamorphosis.**

**Butterflies are fragile creatures, and yet some of them can survive as adults through the Winter by hibernating and others migrate thousands of miles to reach our city.**

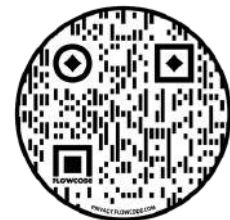

**Butterflies have the power to make us feel happy in an instant when we see them, through their beauty and enchanting flight.**

**We are all connected to the rest of nature and rely on the wonderful web of life around us for our health and wellbeing. Whilst having fun taking part in this butterfly poll, it is therefore important for us all to remember just how precious the city's nature and open spaces are. We need to appreciate them, and look after them.**
